

What to Measure, and HOW

Sociology 310 Discussions, Week 6

Agenda

- Response to Last Week's Questions
- Feedback on Assignment #2b
- Group Work - Assignment #3
- Check Out

For Your Qs...

For Your Questions

regarding SDB, Surveys (w/ index), and Interviews

- Some of you indicated that you've got some questions. Are they regarding general ideas?

For Your Questions

regarding SDB, Surveys (w/ index), and Interviews

- Some of you indicated that you've got some questions. Are they regarding general ideas?
- For the rest, let's discuss with your group's specific case next to us!

Assignment #2b Feedback

On Assignment #2b

Great Work!

- You've got your variables
- For at least some of your variables, you are describing the logics clearly
→ you've known the general idea

On Assignment #2b

Common Issues

- still some formatting errors, though minor
- Remember to proofread before submission!
 - don't, for example, write two verbs or drop your objectives in your sentences
- Check your quotation marks - don't switch back and forth
 - straight "" v.s. curly ""

On Assignment #2b

Illustrate the Full Logic

- You've demonstrated that you know the logic / definition...
- Then show your readers all elements!
- For $X \rightarrow M \rightarrow Y$, show both why $X \rightarrow M$ and $M \rightarrow Y$
- For confounder C , show why potentially $C \leftrightarrow X$ and $C \rightarrow Y$

On Assignment #2b

Functions of References

- You're now citing clearly. Great!
- Cite each time you need it/them
 - it's not to cite for every sentence for which you refer to prior studies...
 - rather, I mean that don't cite for the second paragraph while not for the first
- They are to support you, rather than replace (some of) you
 - if it's an example, use it as an example only
 - also remember to show the full example

Group Work - Assignment #3

Assignment #3

- Have you written down all relevant concepts / variables / dimensions?
- Are these the “smallest / lowest” level, such that they can be directly measured?
- Are your questions measuring what you want to measure?
- Do your questions fit the standards of “good questions”?

Assignment #3

- Peer Evaluation I due Saturday, Oct. 10
- due Monday, Oct. 12
- 2-3 pages of essay for methodology
- bullet points for your survey / interview guide

Check Out

- Please fill in this Check Out Form before you leave
- I will be using this form to track your attendance. This form is also a place where you can share your thoughts, questions, concerns, etc. You can also share your suggestions on how I can improve our sections.
