

From Variables to Hypotheses

Sociology 310 Discussions, Week 4

Agenda

- Formatting is very important!
- Correction: confounder slides from last week
- Questions regarding mediators, moderators, and confounders?
- Group Work - Assignment #2b
- Check Out

Notes

before we begin...

- Any questions / concerns in general?
- Writing Resources:
 - Sweetland Writing Support for Undergraduate Students
 - English Language Institute (ELI) Speaking and Writing Studios

Citation Formatting

The Bibliography Page

both APA and ASA styles share these rules

- The Page Title - "Works Cited" or "References" - should be bolded and center-aligned
- Hanging Indentation: All lines after the first line of each entry in your reference list should be indented one-half inch from the left margin.
- Journal Titles:
 - present them in full and exactly as they are
 - they should be italicized
- **Future errors in formatting will lead to point deduction.**

The screenshot displays the Google Docs web interface. At the top, the browser address bar shows 'docs.google.com'. The document title bar indicates 'Untitled document - Google Docs'. The main menu bar includes 'File', 'Edit', 'View', 'Insert', 'Format', 'Tools', 'Extensions', and 'Help'. The toolbar features various editing tools, including text color, background color, bold, italic, underline, and alignment options. The document content area shows a 'References' section with a single entry: 'Deirdre, Bloome, Shauna Dyer, and Xiang Zhou. 2018. "Educational Inequality, Educational Expansion, and Intergenerational Income Persistence in the United States." *American Sociological Review* 83(6):1215-1253.' The text is formatted with a hanging indent, where the first line is indented further than the subsequent lines. The left sidebar shows 'Document tabs' with 'Tab 1' selected. The bottom of the screen shows a vertical ruler on the left and a horizontal ruler at the top of the document area.

Corrections

A Summary

Analogy + Definition

- Mediators
 - bridge/chain, intermediate Vs explaining the mechanism(s) behind IV influencing DV
- Moderators
 - switch, Vs altering the relationship between IV and DV
- Confounders
 - puppet master, Vs correlated with IV, causing DV, and *not* a mediator

On Confounders...

I need to correct what I said last week!

- puppet master, essentially Vs correlated with IV, causing DV, and *not* a mediator
- “first job (*W*)” not a confounder; both “education (*U*)” and “first job (*W*)” as mediators

- Potential Confounders:

- race/ethnicity? for $X \rightarrow Y$
- academic/cognitive skills?
for $U \rightarrow Y$ in $X \rightarrow U \rightarrow Y$

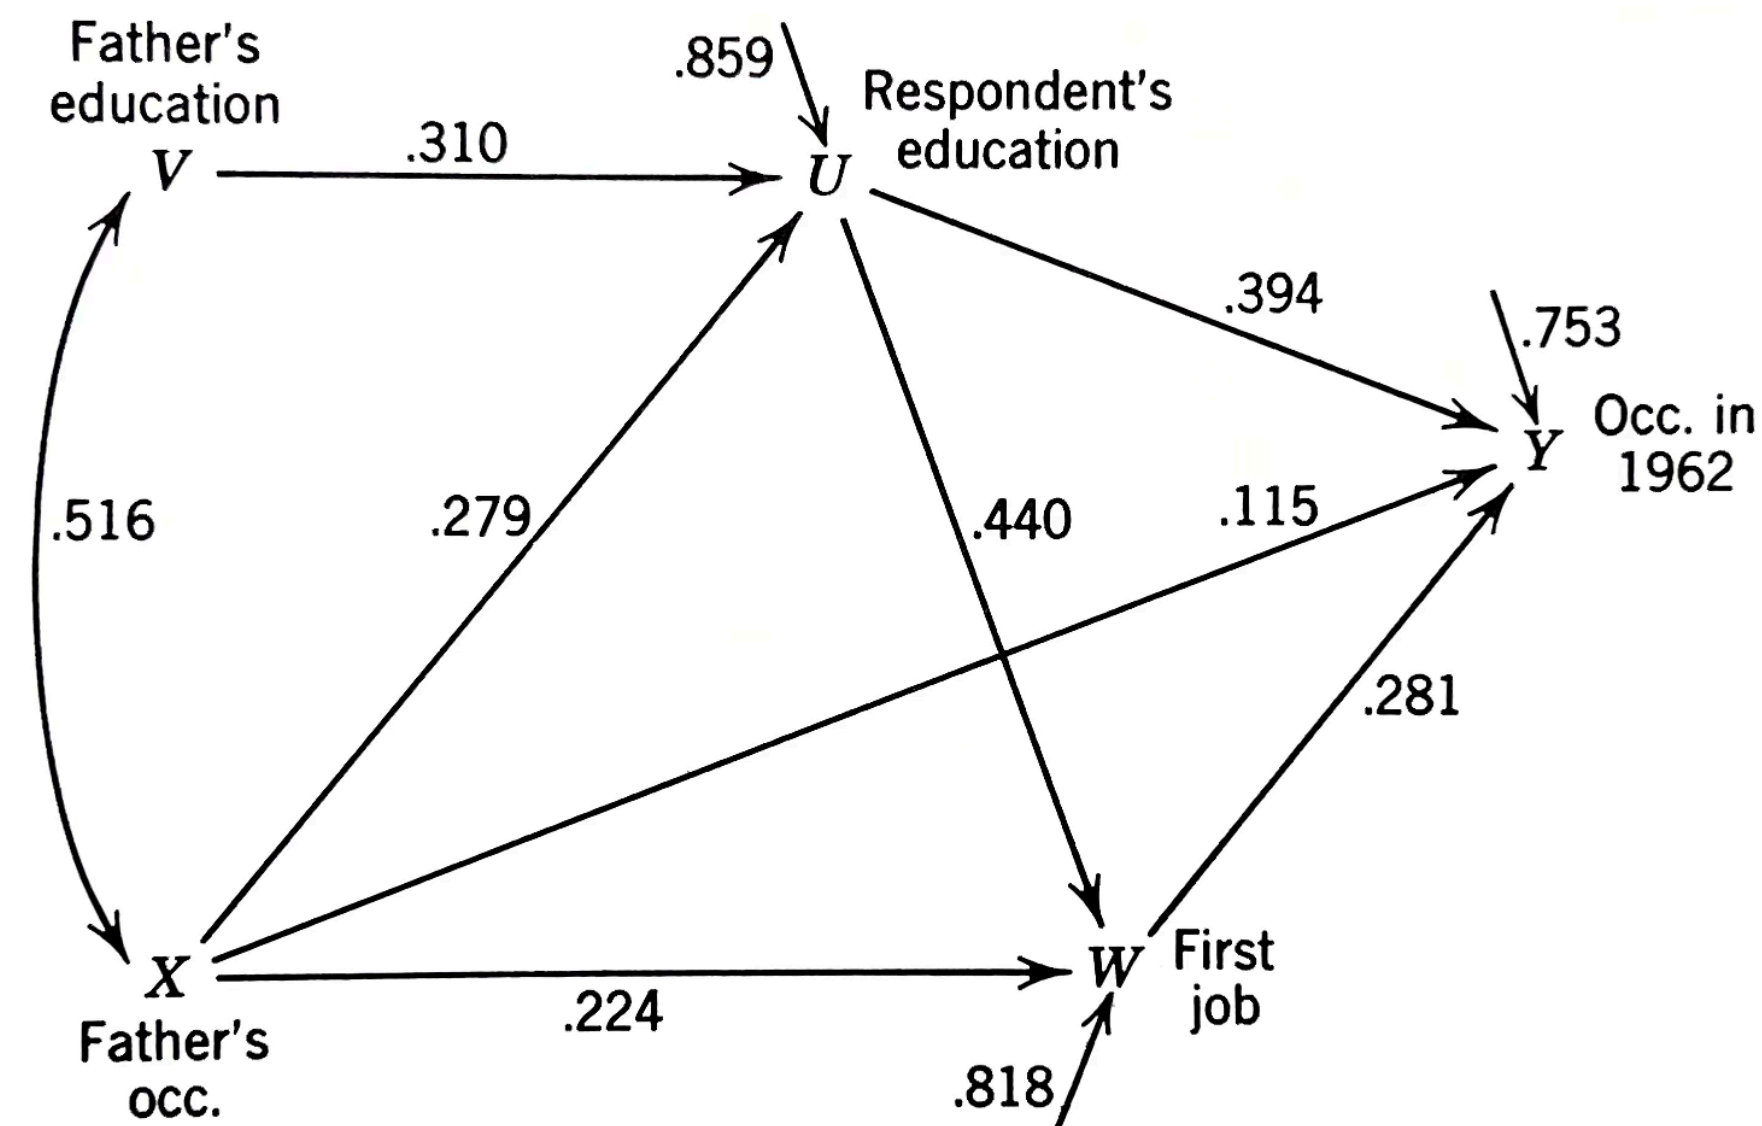

Figure 5.1. Path coefficients in basic model of the process of stratification.

On Confounders...

Two things on which I was right...

- Your goal is to come up with counter explanations -
For your IV-DV causation (with or without mediators), is your IV not causing DV? Rather, they just seem associated? If so, there is a confounder behind the scene. Identify it.
- One variable can be in more than one roles - the types are not mutually exclusive
 - race/ethnicity -
origin-destination association strength differs (e.g., weaker among African Americans)?
 - academic/cognitive skills -
education-destination association strength differs (e.g., stronger for high-skill workers)?

Questions Regarding Variables

Group Work

Assignment #2b

- You should have had a list of variables in your Assignment #2a
- Updates from Assignment #2a:
 - You'll need 8-16 variables
 - You'll need at least 4 mediators and/or moderators

Assignment #2b

- due next Wednesday, Sept. 30
- submit 2 things:
 - your variables + conceptualizations
 - master list as appendix
- will be graded in detail
- *Note: you don't have to cite for everything this time, but I encourage you to cite more*

Check Out

- Please fill in this Check Out Form before you leave
- I will be using this form to track your attendance. This form is also a place where you can share your thoughts, questions, concerns, etc. You can also share your suggestions on how I can improve our sections.
